TRANSPARENT

CASES

Transparent cases are classic accessories that provide excellent protection for your smartphone. They allow you to maintain the original design of your device, while effectively protecting it from damage. In our portfolio you can find cases with different thickness. Thinner models work well for those who prefer minimalism, while thicker versions offer extra protection in case of drops or shocks.

ONE COLOR

CASES

One-color cases are made of materials like TPU and silicone, which perfectly protect the phone from damage. They are available in a variety of colors and fit many smartphone models. The cases are durable and enhanced with additional features such as finger grip and MagSafe technology compatibility. Suitable for a wide audience, they provide protection and a stylish look for your phone.

DEFENDER

CASES

The Defender series are cases that provide extra protection for your device. They consist of several layers that stiffen and strengthen its structure. Higher edges protect the screen from breakage, and additional features such as Finger Grip can be used as a stand or finger grip.

BIOIO

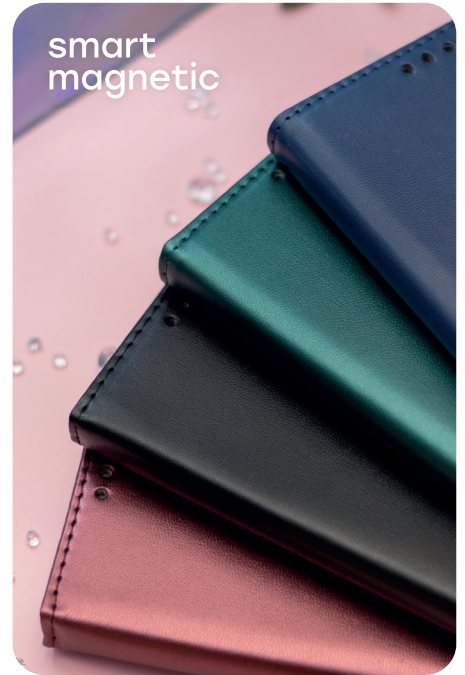

CASES

Bioio are biodegradable cases which are made of materials that will decompose after use, without causing pollution. The ecological composition does not affect the quality of the cases, which are not inferior to conventional products. They are durable, guarantee full protection of smartphones and do not restrict use. They work with wireless chargers and do not increase the size of the phone.

COVERS
