Extra Lens Mag case provides protection for your smartphone, and thanks to its interesting design, it also takes care of its visual appeal. The package includes lenses to protect the camera lens and mounting accessories.

Each lens is individually mounted, guaranteeing maximum protection for the lens against scratches and cracks, even in the event of a fall. Most importantly, this does not affect the quality of photos - allowing you to enjoy excellent photographs without worrying about damaging your device.

The case is compatible with MagSafe technology, supporting wireless charging. Surrounding the camera island is a hinged metal frame that can also serve as a stand, enabling convenient viewing of movies or browsing photos horizontally.

Made from PC+TPU+metal, the case ensures durability and resistance to damage. Additionally, the case has cutouts for ports, providing easy access to all phone functions. On the side, there are openings where you can attach a strap, lanyard, or keychain.

ATTRIBUTES
