SMARTWATCHES

Product offer 2024

Stylish smartwatches for any occasion

Discover the modern collection of **Forever smartwatches** – innovative devices designed to meet the expectations of the most demanding users. Our watches combine advanced technologies with elegant design, offering a wide range of features that make daily life easier and support an active lifestyle.

Health monitoring

Forever smartwatches offer heart rate, sleep, and stress level monitoring features, allowing users to have better control over their health and well-being.

Activity tracking

With built-in sensors and various sports modes, Forever watches accurately track physical activity, helping users achieve fitness goals and improve performance.

Stylish design

Forever watches stand out with their elegant, modern look and robust construction, making them the perfect accessory for both everyday wear and special occasions.

Kids – tracker

Innovative devices that combine functionality, safety, and fun, suited specifically to the needs of the youngest users. These smartwatches are equipped with a range of features that support both children and their parents.

Smartwatch – **Look Me! 3**

Model **KW-520**

An innovative smartwatch that enables constant contact with your child without the need to give them a smartphone. This modern watch, equipped with a SIM card slot, offers complete control and safety, which are crucial for the youngest users.
