

# BLUETOOTH FM TRANSMITTER

**MXFT-03**

OEM0400391

FM Bluetooth Transmitter Maxlife MXTF-03 is an excellent device for wireless music playback and hands-free calls while driving. It allows for easy connection with any Bluetooth-enabled device. The built-in microphone enables safe phone conversations while driving, eliminating the need to hold the phone in hand.

The transmitter supports music playback from various sources. You can listen to music via Bluetooth, connect a USB drive to one of the two USB ports on the transmitter, or insert a TF card into the card reader.

The MXTF-03 transmitter supports popular music file formats such as MP3 and WMA, ensuring excellent sound quality. An additional advantage is the presence of two USB-A ports with 3.1A charging power, allowing you to charge two devices simultaneously.
